

**Community Infrastructure Levy Indexation – application in Wokingham Borough Council**

CIL charges are subject to indexation, which takes into account any changes in price between the time when charging schedules come into force and the time at which planning permission is granted.

The previous calculation (before 1<sup>st</sup> January 2020) of CIL Liability used the Building Cost Information Service (BCIS) of the Royal Institution of Chartered Surveyors All-In Tender Price Index to ensure payments reflect value changes over time.

However, since 1<sup>st</sup> January 2020 CIL indexing is a fixed figure for each calendar year as introduced in the Community Infrastructure Levy (Amendment) (England) Regulations 2019 amendments. The figure used is the RICS CIL Index published by the Royal Institution of Chartered Surveyors. This annual index figure is published on or around 1<sup>st</sup> November each year and applies from 1<sup>st</sup> January of the following year. The latest RICS CIL Index figure is available on the [RICS website](#).

The CIL chargeable on any planning application is calculated using the following formula:

The CIL chargeable on any planning application is calculated using the following formula:

$$\frac{R \times A \times I^P}{I^C}$$

**R** – the CIL rate in £/sqm  
**A** – the deemed net area chargeable at rate R  
**I<sup>P</sup>** – is the All-in Price Index for the year in which planning permission was granted  
**I<sup>C</sup>** – is the All-in Price Index for the year in which the charging schedule started operation

**2025 Example**

Planning permission for one new residential dwelling with a total GIA of 100 square metres.  
 The development is located within the ‘rest of borough’ charging zone; therefore the rate of CIL is **£365 per square metre**.

**R** – 365  
**A** – 100  
**I<sup>P</sup>** – 391  
**I<sup>C</sup>** – 259

$$\frac{365 \times 100 \times 391}{259} = \text{Total CIL Liability } \underline{\underline{£55,102.32}}$$

**Community Infrastructure Levy Charges** The charging schedule in Table 1 outlines the differential CIL rate for each development type and charging zone within the Wokingham Borough. CIL is charged in pounds sterling (£) per m<sup>2</sup>.
