

Footway Resurfacing programme 2024-25

This document was last updated on **15th January 2025**. We will update this if any dates change.

Residents on each road will be contacted directly prior to works.

About the programme

Each year, Wokingham Borough Council invests millions of pounds repairing roads across the borough through its annual maintenance programme. Roads are assessed and monitored throughout the year using a range of techniques, which informs the plan for the coming year. We will also be carrying out some additional works on footways this year. This document contains the planned footway works for 2024-25, although dates are subject to change.

Footway Slurry Seal which is a protective seal coat that extends the life our footways. It is a thin, tough layer of asphalt emulsion blended with finely crushed stone for traction. This is a cost-effective method to renew the footway surface and seal minor cracks and other irregularities.

The slurry sealing process can be susceptible to the weather requiring optimum conditions to successfully implement and is carried out by just a few specialist suppliers nationwide.

While the road will remain open during these works, we will have various traffic management in place, such as temporary traffic lights or lane closures, to help ensure the safety of both site team and pedestrians.

Preparations will be carried out in the weeks leading up to the works starting. This includes any patch repairs that may be needed and also clearing vegetation.

Due to the nature of the works, the contractor may require full access to all footways within the extents the works. However, we will ensure pedestrian access is available at all times on one side of the road or the other as we will only work on one side of the road at a time.

If surrounding hedgerows impede access to the works area, this could impact the progression of the works. Please notify us if you believe that vegetation near your property may impact the programme of works. Visit www.wokingham.gov.uk/HGE and select resurfacing works

**Footways**

Reference	Road Name	Ward	Traffic Management	Start Date	End Date	Status
9642	Mumbery Hill	Wargrave	Road Closure	03/02/2025	07/02/2025	Scheduled
9700	Station Road	Wargrave	Give/Take	06/02/2025	07/02/2025	Scheduled
